

# Sioux City Schools Elementary Science Resource

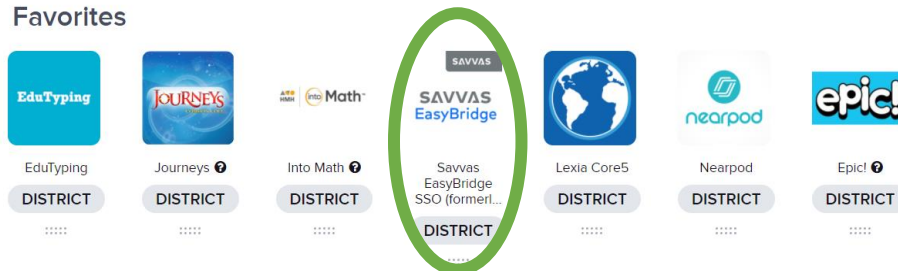

## Topic: Accessing Interactive Science Books

1. Selecting your Interactive Science Book in Clever
2. Make science assignments for your class.

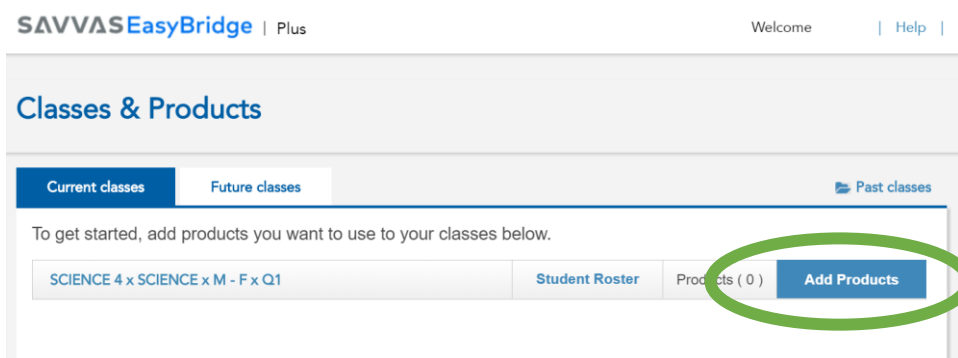

### Step by stop Directions

1. Login to your Clever Account.
2. Find the SAVVAS EasyBridge Button and click on it.

#### Favorites

3. It will load through Clever
4. It will pop up and you will see a page that says Classes and Products at the top with tabs for your Current and Future Classes
5. Click on the blue Add Products box.

6. A list of products will pop up and you will need to scroll down until you see

**Interactive Science Grade # Realize** (you will click on the Interactive Science that matches the grade you teach.

For Example --- this is for 4<sup>th</sup> Grade (you need to choose on the one for your grade)

**Add Products - SCIENCE 4 x SCIENCE x M - F x Q1** [X]

Platform: All learning systems [v] Product Name: [ ]

<input type="checkbox"/>	Interactive Science Grade 3 for Realize	Dash, Realize
<input type="checkbox"/>	Interactive Science Grade 4 eText	Stand-Alone eText
<input checked="" type="checkbox"/>	Interactive Science Grade 4 for Realize	Dash, Realize
<input type="checkbox"/>	Interactive Science Grade 5 eText	Stand-Alone eText
<input type="checkbox"/>	Interactive Science Grade 5 for Realize	Dash, Realize

[Cancel] [Save]

7. Do not choose the Interactive Science Grade # eText.
8. Click Save. (You will have to do this steps 5-7 for your future classes as well but you can do that anytime between now and when you need them.)
9. Once you have done that, click back on the title for the Interactive Science Grade # for Realize

Explore your programs to find items to assign. Then view your students' mastery, progress, and usage data.

Find items to assign

11. When you click on the blue bubble to create assignments, your chosen resource will appear. Click on it. (\*Note that the image on the front of the paper copy of your text and the chapter numbers do not match. It is arranged like this because of what we have purchased here in Sioux City based on our curriculum maps, The page number on the digital version will not match what we have for the hard copies of the books.)

12. Choose the Chapter you would like to make an assignment for.

13. Choose the lesson you would like to work from (for this example, Lesson 1). Click on it to use it.

The screenshot shows a green header bar with a back arrow and the text "Chapter 1 Energy and Heat". Below this is a list of items:

- Chapter 1 Energy and Heat Opener (with a soccer ball icon, Info, and Customize links)
- Lesson 1 What are forms of energy?** (with a blue circle containing the number 1, Info, Teacher resources, and Customize links). This item is circled in green.
- Lesson 2 What is sound energy? (with a blue circle containing the number 2, Info, Teacher resources, and Customize links)

On the right side, there are three buttons: "Create Content", "My Content", and "Teacher Resources".

14. Choose the part of the lesson you would like to assign. Click assign to activate one lesson or choose multiple lessons to assign multiple activities. The activities you assign will automatically be sent to your students through Clever when they access the Interactive Science book from their Clever portal.

The screenshot shows a green header bar with a back arrow and the text "Lesson 1 What are forms of energy?". Below this is a "Select all" checkbox and a section titled "Engage and Explore".

Under "Engage and Explore", there are three items:

- Fun Fact: Glow Sticks (with a hand icon, Assign, Add to Playlist, and Info links)
- Fun Fact: Glow Sticks My Planet Diary** (with a pencil icon, Assign, Add to Playlist, and Info links). The "Assign" button is circled in green.
- What are forms of energy? (with a hand icon, Assign, Add to Playlist, and Info links)

On the right side, there are buttons for "Assign All", "Add all to Playlist", "Info", "Edit", "Rearrange", and a "Teacher Resources" dropdown menu.
